Subject Another rev to the draft DPP

Attached is the latest version of the draft DPP -- dated 2/13/98. It contains what Chris and I agreed to, and some, but not all, comments from Kassen, Howell, Tarlton, and me. I cleared some, but not all, of my changes with Tim. I didn't address Edd's, yet, and will defer them to your meeting next week. I'm returning Tarlton's comments to you, and have marked the ones I addressed. I did not get ahold of him to confirm that I'd made the changes the way he wants them.

Since this is an intermediate version (as opposed, I guess, to an official revision), I'm not distributing this widely. I am going to send a copy to Chris G, so he can see if what I wrote closes his issues, and to Mark Aguilar so he's up-to-date.

The text change convention is as follows:

Bold = text added in version dated 2/5/98

~~Strikeout~~ = text deleted in version dated 2/5/98

Bold and underlined = text added in version dated 2/13/98

~~Strikeout and underlined~~ = text deleted in version dated 2/13/98
